Taman Sri Rampai, Setapak  
Kuala Lumpur, Malaysia

**Re: Implementaion of UCMAS programme as a basic  
education project in Sudan:**

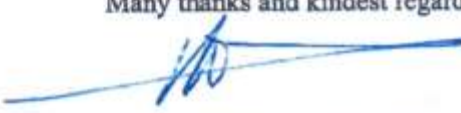

I would like to express my sincere thanks and gratitude for responding to our invitation for you to visit Sudan and present your ideas relating to the total brain development of pupils in our schools in Sudan.

Following our meeting with the President and his subsequent approval of the ideas you presented, I must say that I was very pleased to that great outcome.

It goes without saying that Total Quality principles of continuous improvement are fundamentally based upon the principles of creativity and innovation. Therefore, we had always called for revolutionizing our educational system and add more creative thinking context to it.

Finally, I confirm that I find your action plan of implementation as well as funding proposal very convincing and plausible. I wish you every success in the implementation of this programme as well as all your future endeavours.

Many thanks and kindest regards,

  
**Prof. Hadi Mohammed Eltigani**  
Quality Advisor to the Sudanese president
